## COMMUNITY ART ACTIVITY

9am – 5.30pm

What happens when paint is dropped on a rotating surface? Come and make your own *Spin Art* creations at the Village and contribute to the community art installation at the Main tent in response to the theme of "We are Singapore"!

*Spin Art* is a highly interactive activity that allows exploration of speed in art, and how speed and movement affects art making in creative ways. Participants are introduced to the idea of art and technology by learning how the use of batteries, wires and motors creates unique art expressions on paper!

## MUSEUM ROUNDTABLE ARTS AND HERITAGE VILLAGE
